

2022 Auditing Requirements Guideline March 3, 2022

BC Provincial Requirements

WSBC continues to require that audit observations be in-person and included in all audits. Auditors and employers may continue to use virtual document reviews, and virtual interviews, if necessary.

Other Provincial Requirements | AB, SK & MB etc.

NEW | Restrictions lifted on On-Site data gathering: Please review the following. It applies for SK and MB provinces as well.

- Partnerships is lifting the suspension of on-site data gathering by auditors, effective March 1.
 - Auditors may now resume on-site data gathering activities or continue to work remotely.
 - Prior to conducting on-site data gathering activities, both the auditor and employer must agree that on-site work can be safely conducted.
 - Including observations is an option for 2022 audits. If employers choose, they can decide to only conduct Document / Interview audits.
- Auditors and employers must continue to follow the [Safe Auditing Guidelines](#) for on-site activities.
